

Skullcandy Unveils Ink'd ANC: True Wireless Earbuds with Active Noise Cancelling and Massive Battery Life

New Delhi, 06 Sept 2025 — Skullcandy today introduces its latest innovation in personal audio: **Ink'd ANC**, true wireless earbuds that combine powerful sound, advanced noise cancelling, and up to **43 hours** of total battery life—all wrapped in Skullcandy's signature style.

Key Highlights

- **Active Noise Cancelling (ANC):** Equipped with a 4-microphone system to reduce ambient noise so listeners can focus on music, calls, or simply silence. [Skullcandy](#)
 - **Signature Skullcandy Sound & Bass:** Deep bass and crisp audio thanks to optimized drivers. [Skullcandy](#)
 - **Long Battery Life:** Up to **43 hours** total usage (buds + case) to keep you powered through long days. [Skullcandy](#)
 - **Rapid Charge:** Get approximately **2 hours** of playback from just **10 minutes** of charging. [Skullcandy](#)
 - **Multipoint Pairing & Low Latency:** Seamlessly connect to multiple devices with minimal lag. [Skullcandy](#)
 - **Durability:** Sweat & water resistant for everyday use. [Skullcandy](#)

Brand Statement

“With Ink'd ANC, we wanted to bring the powerful Skullcandy sound and our bold design into a product that also gives users peace & clarity. Whether you're commuting, working, or just unwinding—Ink'd ANC gives you the freedom to focus on what matters.”

Why Ink'd ANC Matters

In today's noisy, always-on world, listeners demand more than just great sound. They want silence when needed, clarity when speaking, durability for daily use—and battery life that won't quit. **Ink'd ANC** delivers on all fronts, making it an ideal companion for commuters, audiophiles, gamers, remote-workers, or anyone seeking premium wireless sound without compromise.
